

## Terry Tilley

**Social Media:** [GitHub](#) | [LinkedIn](#)

A passionate developer with over 8 years' experience in front end development with extensive knowledge of JavaScript/TypeScript using frameworks such as Vue.js and React.js. Skilled at write clean and concise code that is easy to maintain.

Currently I am working on a personal project to index and categories rap battles. It's a full stack application using the Next.js framework with social login. I have built out the admin section for a user to manage artists, leagues and battles hosted on YouTube. The data is then presented to logged out user and made searchable using Algolia search.
